UCLouvain Center for Cosmology,

This is where the abstract should be placed. It should consist of one paragraph and give a concise summary of the material in the article below. Replace the title, authors, and addresses within the curly brackets with your own title, authors, and addresses; please use capital letters for the title and the authors. You may have as many authors and addresses as you wish. It's preferable not to use footnotes in the abstract or the title; the acknowledgments for funding bodies etc. are placed in a separate section at the end of the text.

Guidelines

The Blois proceedings are printed from camera-ready manuscripts. The following guidelines are intended to get a uniform rendering of the proceedings. Authors with no connection to should use this sample text as a guide for their presentation using their favorite text editor (see section subsec:final)

Producing the Hard Copysubsec:prod

The hard copy may be printed using the procedure given below. You should use two files: You can get these files from our site at <http://blois.in2p3.fr/2021/proceedings.php.description>

[blois.cls] the style file that provides the higher level commands for the proceedings. Don't change these parameters.

[blois.tex] the main text. You can delete our sample text and replace it with your own contribution to the volume, however we recommend keeping an initial version of the file for reference.
